Professional resume

Hello! I am a software engineer passionate about technology and innovation, with a specialized focus on front-end development. I am excited to apply my academic knowledge and technical skills to real-world applications. I am a hardworking, communicative, and committed professional with strong project management skills and experience collaborating in multidisciplinary teams. I am dedicated to continuously improving my competencies and making significant contributions to every project I participate in.

Projects

KEEPNAI - **AI-Powered Wildfire Detection System** – Frontend Developer
- **AI Hackathon, Chile, 2024**
  - Developed the frontend interface for a drone-based wildfire detection system using React and integrating with AI backend services.

EcoVentus - **UAV Monitoring Platform | Software Developer**
- **Huawei Developer Competition Latin America, 2024 – Second Place**
  - I developed an interactive dashboard using Leaflet.js and React, integrating detailed maps for real-time route visualization and UAV data analysis, integrating the frontend and backend using APIs developed with Node.js and Flask.

Experience

Xolotl Creative Labs, 2024 – Junior Software Developer
- **Project: Development of a Marketplace application.**
  - Development of a mobile application for a digital commerce space that facilitates the sale of products, allowing users to buy and sell efficiently.
- **Responsibilities:**
  - Develop the mobile application using Android Studio, ensuring an intuitive and smooth user experience.
  - Participate in weekly Scrum meetings and collaborate in sprints to ensure the continuous delivery of features and improvements.

Infosys, (January 2025 – Present) - Systems Engineer Trainee
- Intensive training in Java software development, including advanced structures, design patterns, and best practices.
- Learning agile methodologies and software architecture principles applied to enterprise projects.
- Collaboration with multidisciplinary professionals in a global, English-speaking environment.
- Development of technical and problem-solving skills in real-world scenarios.
